

# Civil 3D Advanced Topic

## Piping & Hydrology

Courses | 4 Hours

AM: 8:30 -12:00 | PM: 1:00 - 4:30

Piping & Hydrology with Civil 3D is an integrated process that includes pipe network design and analysis with hydraflow. Learn how to easily import and export pipe networks, create and analyze hydrographs, calculate pipe and structure sizes and generate reports from hydraflow.

**Prerequisite:** Civil 3D Fundamentals and at least 3 months of production experience recommended.

**Autodesk**  
Authorized Training Center

### Piping and Hydrology

- Pipe Network Design
  - Best Practices
  - Labeling
  - Pipes in Profile and Cross Sections
- Storm Sewer Design for Civil 3D
  - Hydraflow Storm Sewers
  - Import/Export Procedures
- Hydraflow Hydrographs and Express
  - Hydrograph Creation
  - Using Hydraflow Express
  - Hydraflow Reporting Tools
