

Civil 3D Templates and Styles

Course

4 Hours

Class Hours

8:30am - 12:30pm

AutoCAD Civil 3D Templates and Styles allows students to become comfortable with creating styles and managing templates within Civil 3D. Learn the similarities between style classes and how to quickly change common style features.

This course is perfect for anyone who is getting started with Civil 3D or just looking for a better understanding of how the software manages styles and settings. Users who are tasked with creating standard templates will find this course very beneficial.

Prerequisite: AutoCAD Fundamentals and a working knowledge of civil engineering concepts.

Visit mwcad.com for a complete class schedule or call us at 800-279-3221.

What students are saying about our courses:

"I loved how the instructor focused the materials to our needs and uses. Great course!"

- Matthew Crockett,
Aquaterra
Environmental
Solutions

"The class was very good. I was skeptical about trying to take such a high-tech class but the instructor made the course not only doable but also enjoyable."

- Judy Looney,
Water One

Civil 3D Templates

- How Templates are used by Civil 3D, Information stored by Templates, Drawing Settings, Using Templates, Working With Styles.
