

Revit Architecture Collaboration Tools

Course | 1 day *

Class Hours | 8:30am - 4:30pm

Revit Architecture Collaboration Tools enables students who have a basic knowledge of Revit to increase their productivity while working with other people on a design team, either in the same firm or with other firms, and while working with Revit files or other CAD files.

Prerequisites: Basic knowledge of Windows Operating System and computer keyboard skills, Revit Architecture Fundamentals, and understanding of architectural design concepts.

Project Phasing and Design Options

- Project Phasing
- Design Options

Groups and Links

- Using Groups
- Modifying Groups
- Linking Revit Files
- Links and Groups
- Visibility and Graphic Overrides in Linked Views

Importing and Exporting

- Importing Vector Files
- Modifying Imported Files
- Importing Raster Image Files
- Exporting Files
- Exporting for Energy Analysis

Project Team Collaboration

- Introduction to Worksets
- Opening Workset-Related Projects
- Working in Workset-Related Projects
- Setting up Worksets
- Best Practices for Worksets
